EURASIAN SOIL SCIENCE

Volume 24

Contents for 1992

Number 1

Genesis and Geography of Soils

V.S. Stolbovoy: Current Problems in the Study of Tropical Soils 1

A.I. Romashkevich: Soil Substrates, Denudation, and Potential Instability of Mountain Geosystems in the Temperate Zone 16

Soil Biology

I.F. Kargin: Root-System Development and Water Supply for Crops on Fields Protected by Windbreak Strips 24

V.G. Mordkovich: Zoological Identification of Soils and Soil Processes 32

V.S. Guzev and S.V. Levin: Prospects for Ecomicrobiological Monitoring of Soil Conditions under Anthropogenic Influences 41

Soil Chemistry

A.D. Fokin, V.K. Kukushkin, and K.Sh. Ibragimov: Degradation and Leaching of Chlorsulfuron in the Soil and Concentration of Its Residual Products 55

S.Yu. Rozov and L.N. Popova: Ion Composition and Organic Matter of the Soil Solutions of Calcareous Chernozems under Integrated Melioration 61

Soil Pollution

A.V. Bykov and A.B. Lysikov: Influence of Mole Activity on Soil Pollution in Roadside Forest Strips 71

Soil Reclamation

B.A. Zimovets: Melioration, Fertility, and Ecology of Soils of the Arid Zone 81

Soil Physics

B.P. Akhtyrtsev and I.A. Lepilin: Hydraulic Characteristics of Ordinary Chernozems of the South Russian Steppe under Various Types of Utilization 90

D.S. Orlov, Ye.I. Karavanova, and Ye.I. Pankova: Effect of Readily Soluble Salts on the Spectral Reflectivity of Soils of the Sierozem Zone 104

N.N. Berezin, A.V. Kirichenko, M.A. Koryakina, and S.N. Konovalov: Experimental Investigations of Size Distributions of Aggregates, Microaggregates, and Elementary Particles in Soils 119

D.S. Orlov, Ye.I. Karavanova, and Ye.I. Pankova: Effect of Readily Soluble Salts on the Spectral Reflectivity of Soils of the Sierozem Zone 104

N.N. Berezin, A.V. Kirichenko, M.A. Koryakina, and S.N. Konovalov: Experimental Investigations of Size Distributions of Aggregates, Microaggregates, and Elementary Particles in Soils 119

Number 2

Soil Chemistry

V.S. Anisimov, N.I. Sanzharova, and R.M. Aleksakhin: On the Forms and Vertical Distribution of ^{137}Cs in Soils Near the Accident at the Chernobyl Nuclear Power Station 1
V.A. Kasatikov: Effect of Municipal Sewage Sludge on Soil Microelement Composition 11
N.L. Ozerova and A.N. Maksimchuk: Photometric Detection of Manganese in Soil 21
Ye.I. Shestakov, I.S. Kaurichev, A.I. Karpukhin, and V.V. Rachinskiy: Composition, Stability, and Availability for Plants of Water-Soluble Organic Compounds of Manganese 24
V.N. Bashkin, O.A. Luchitskaya, M.Ya. Kozlov, and O.N. Voloshina: Differentiation of Soils and Their Mobile Biophilic Element Content with Respect to Topography 37

Soil Physics

N.V. Toritsyna, A.V. Bobrina, and I.I. Sudnitsyn: Water Balance of Greenhouse Soil with Various Irrigation Methods 47
Ye.B. Skvortsova, R.F. Baybekov, and Ye.V. Dostovalova: Structure of Pore Space of Sod-Podzolic Soils with Long-Term Fertilizer Application 53

Soil Biology

T.S. Vsevolodova-Perel', L.O. Karpachevskiy, and S.E. Nadtochiy: Participation of Saprophages (Mesofauna) in the Decomposition of Litter 69
E.A. Shtina: Regulation of the Development of Algae in Soil 79

Methods

M.A. Gorshkova, M.Ye. Kozyritskaya, and N.A. Tikhonov: Mathematical Modeling of Variations in Nitrogen Content of Soils and Plants 89
L. Szabo: Field-Management Techniques for Combating Erosion of Ferralitic Soils 95
M.B. Dontsov and S.N. Kravchenko: Technological Principles for Obtaining Soil Extracts 100
G.M. Varshal, G.K. Velyukhanova, I.Ya. Koshcheyeva, N.Ye. Khar'kov, S.R. Zhukov, and T.F. Kudinova: Determination of Coexisting Forms of Pollutants in Soils by Chemical Phase Analysis 110
A.V. Smagin and G.V. Smirnov: Use of Gas Chromatography to Determine the Sorption Isotherms of Water Vapor in Soil 119
S.V. Runkov and N.A. Kozlovskaya: A Rapid Method for Biochemical Analysis of Soil Samples 125

Number 3

Soil Biology

Yu.G. Gel'tser: Free-Living Protozoa as a Component of Soil Biota 1

O.Ye. Marfenina, L.V. Popova, and D.G. Zvyagintsev: Characteristics of the Development Cycle of Microscopic Fungi in Soils 17
V.G. Mordkovich: Invertebrate Animals and the Assessment of Elementary Soil Processes 26
G.M. Zenova, U.G. Shirokikh, L.V. Lisak, and D.G. Zvyagintsev: Mesophilic and Heat-Tolerant Actinomycetes in Reclaimed Peatlands of the Southern Taiga 35
F.Kh. Khaziyev and A.Ye. Gul'ko: Enzymatic Activity of Soils in Agrocenoses and Prospects for Their Study 43

Soil Erosion

S.Yu. Bulygin and F.N. Lisetskiy: Soil Microaggregation as an Index of Erosion Resistance 59

Soil Chemistry

V.D. Vasil'yevskaya and I.N. Shibayeva: Fraction Composition of Metal Compounds in Southern Taiga Soils of the Trans-Volga Region 66

Soil Mineralogy

V.V. Ivanov, M.Yu. Belova, and Yu.L. Meshalkina: Coarse Fraction Minerals in Profile of Podzols on Sands of different Age of the Non-Chernozem Region 76

Soil Physics

N.G. Oreshkin: Condensation of Water Vapor on Stony Soils of the Kazakh Hilly Plateau 87
N.G. Gummatov, Ya.A. Pachepskiy, and R.A. Shcherbakov: Lateral and Temporal Variability of Water Retention by Gray Forest Soil 92
Yu.S. Tolchel'nikov, E.M. Samoylova, A.M. Grebennikov, E.A. Kondrashkin, and A.V. Mazur: Influence of Fissuring on Water Regime of Southern Chernozems of Western Siberia 101

Soil Reclamation

A.M. Burygin: Contribution of Substrate Material to the Fertility of Reclaimed Lands: Experience from the Kursk Magnetic Anomaly Region 111

Methods

Yu.N. Vodyanitskiy: Parallel and Consecutive Chemical Extractions for Analysis of Forms of Iron in Soils 119

Number 4

Genesis and Geography of Soils

L.L. Ubugunov and V.I. Ubugunova: River Floodplain Soils of Mongolia 1

A.I. Kulikov: Soil Ecology and an Information Analysis of Correlations in the Soil-Environment System 14
V.K. Kashin and G.M. Ivanov: Iodine in Soils of Transbaikalia 24
L.Yu. Reyntam: Soil Formation on Islands of Various Ages in the West Estonian Inland Sea (Moonzund Strait) 34
N.P. Solntseva, N.Ye. Rubilina, M.I. Gerasimova, and S.V. Alistratov: Alteration of the Morphology of Leached Chernozems in a Coal-Mining District 46
N.S. Kasimov and A.I. Perel'man: The Geochemistry of Soils 59
V.O. Targul'yan: The Pedosphere as a Surface Planetary Shell 77
I.A. Sokolov and I.S. Mikhaylov: The Pedosphere and the Hydrothermal Process 91

Soil Physics

V.D. Karpenko, V.V. Savost'yanov, and N.S. Yerkhov: Free-Flow Water Permeability of Central Siberian Soils 98
I.V. Kuznetsov and V.I. Danilova: Influence of Granulometric, Mineralogical Composition, and Content of Organic Material on Soil Swelling 106
N.I. Gamayunov, B.I. Maslennikov, and Yu.A. Shul'man: Sorption Properties of Humic Acids 122

Number 5

Soil Chemistry

Yu.Yu. Navosha, S.G. Prokhorov, V.P. Strigutskiy, and A.E. Tomson: Interaction of Humic Substances with Metal Ions 1
G.F. Rubinchik, Ye.M. Beskaravayeva, A.T. Tadzhiyev, and D.A. Khudzhanazarova: Interaction of Humin Preparations with Calcium Phosphate, Natural Phosphates, and Phosphorus Fertilizers 7
N.Ye. Orlova, L.G. Bakina, and T.A. Plotnikova: Interaction of Humic Acids with Calcium and Implications for the Liming of Soils 12

Soil Mineralogy

M.P. Verba: Minerals of the Coarse Fractions of Taiga Soils with a Texture-Differentiated Profile 17

Soil Biology

G.G. Kuzyakhmetov: Algae of Zonal Steppe and Forest-Steppe Soils 35
I.F. Komissarova, V.R. Filin, N.A. Alekhina, and I.I. Nauyalis: Changes in Certain Soil Properties under the Influence of Lycopodium Fairy Rings 45
Ye.A. Vorob'yeva and E.B. Gviniashvili: Stabilization of Protease and Invertase in the Soil as a Function of Temperature and pH 60

Soil Erosion

V.P. Gerasimenko: Prediction of Soil and Water Conservation Efficiency of Methods for Cultivating Slope Land 69

Soil Pollution

N.V. Grebenshchikova, S.K. Firsakova, A.A. Novik, S.F. Timofeyev, G.I. Palekshanova, N.I. Samuseva, and I.A. Levikov: Behavior Patterns of Radiocesium in Soils and Plants of the Belorussian Polesie since the Accident at the Chernobyl Nuclear Power Plant 83

Methods

V.P. Strigutskiy, Yu.Yu. Navosha, T.P. Smychnik, and N.N. Bambala: Use of Nonlinear EPR Spectroscopy to Investigate the Structure of Humic Acids 93

V.V. Maryganova, N.N. Bambalov, I.M. Lukashenko, G.A. Kalinkevich, and R.A. Khmel'nitskiy: Use of Pyrolytic Mass Spectroscopy to Investigate Peat Humic Acids 99

O.V. Bazarova, V.M. Dudarchik, S.G. Prokhorov, V.G. Strigutskiy, and V.S. Zhdanov: Use of Nonlinear EPR Spectroscopy to Investigate Humic Acids Modified by Nitrogen Compounds 104

L.V. Shishmina, N.V. Chukhareva, and S.I. Smol'yaninov: Structure of Humic Acids as Indicated by Thermal Analysis 109

A.Ye. Cherkinskiy: Use of the Radiocarbon Method to Investigate the Alteration of Soil Humic Acids 114

I.N. Solov'yev and I.V. Reznikov: Profile Differentiation of Sod-Podzolic Soil in Terms of Moisture Dynamics 120

Number 6

Genesis and Geography of Soils

D.S. Sattarov, V.E. Sektimenko, and V.G. Popov: State of Soil Cover in the Aral Region in Conjunction with the Drying of the Aral Sea 1

N.I. Belousova, V.V. Berkgaut, I.I. Vasenev, and E.B. Pavlova: Podzolic Soils on Basic Rocks 6

B.V. Sheremet and T.V. Afanas'yeva: New Principles for the Classification of Alluvial Soils 18

I.V. Kovda, Ye.G. Morgun, and T.V. Alekseyeva: Development of Gilgai Soil Cover in Central Ciscaucasia 28

V.M. Yakushev: Evolution of the Clastic Cover of the West African Peneplain 46

F.R. Zaydel'man and G.A. Danilova: Effect of the Degree of Hydromorphism on the Composition of Organic Matter in Neoformations of Sod-Podzolic Soils 53

Yu.I. Man'ko, G.A. Gladkova, and G.N. Butobets: Soils of Deteriorating Dark-Coniferous Forest in the Northern Primorye Area 64

Forest Soil Science

R.K. Kylli: Production and Ecological Characteristics of Organic Matter of Forest Soils 78

V.A. Bgantsova: Influence of Herbaceous Plants on Soil Properties in a Forest Biogeocenosis 92

Soil Chemistry

M.Sh. Shaymukhametov, L.N. Kalishina, N.V. Knyazeva, and L.S. Travnikova: Thermodynamic Evaluation of the Potassium and Phosphorus Status of Chernozems in Areas of Soil Protective Agriculture 107

Methods

E.Yu. Nabiyev: Change in Thermal Conductivity of Soils at Low Moisture Levels 120

S.S. Islamov, A.A. Okhitin, and A.V. Sudakov: Gas-Chromatographic Analysis of Metabolic Gases with a Flame-Photometer Detector 123

Number 7

Soil Chemistry

S.A. Ryabtsova, V.T. Rymar', T.F. Bochko, and I.V. Podlesnyy: Fractional Makeup of Phosphorus in Soils of the Kuban Delta after Prolonged Rice Culture 1

T.V. Karpinets and G.S. Lipkina: Stable Steady States of the Potassium Regime in Soils 9

S.N. Ivleva, N.A. Shimko, and A.L. Yefremov: Effect of Toxic Organic Compounds on the Enzymatic Activity of Soil 18

O.I. Min'ko and D.A. Farmakovskiy: Rates of Generation of Hydrogen and Methane in Soils as a Function of Moisture Content 25

N.I. Gamayunov and B.I. Maslennikov: Mechanism of the Interaction of Cations with the Adsorptive Complex of Peat Soil 32

M.P. Kolesnikov: Flavonoids and Perylene in Soils 38

A.A. Titlyanova: Circulation of Phosphorus in Grassland and Agricultural Ecosystems 47

V.A. Kasatikov, V.E. Runik, S.M. Kasatikova, and N.P. Shabardina: Influence of Sludge from Urban Sewage on the Microelement Composition of Sod-Podzolic Loamy Sand Soils 62

Soil Biology

M. Kromka, A.L. Stepanov, and M.M. Umarov: Reduction of Nitrous Oxide by the Microbial Biomass in Soils 68

V.A. Chernikov: Transformation of Humic Acids by Autochthonous Microflora 75

M.V. Tarashchuk and A.M Maliyenko: Effect of Type of Soil Tillage on the Collembolan Population 84

Soil Conservation

A.S. Yakovlev, S.I. Reshetnikov, Ye.A. Goryachenkova, and Ye.P. Gavrilova: Effect of Copper Oxide and Solutions of Sulfuric Acid on Properties of Sod-Podzolic Soils (Model Experiment) 94

Soil Reclamation

I.P. Kruzhilin, A.S. Morozova, and L.A. Kazakova: Dynamics of Soil Processes in Irrigated Solonetzes 105

I.A. Lepilin: Effect of Undiluted Sludge from Pig Farms on Groundwater and Some Properties of Chernozem Soils 118

Number 8

Soil Physics

T.A. Rycheva, V.A. Kapinos, and T.G. Gil'manov: Modeling the Temperature Regime of an Arctic Soil 1

Ye.M. Gusev, O.Ye. Busarova, A.A. Shurkhno, and S.V. Yasinskiy: Effects of a Straw Mulch on the Thermal Conditions in Soil after Snow-Cover Loss 12

N.G. Gummatov, S.V. Zhiromskiy, Ye.V. Mironenko, Ya.A. Pachepskiy, and R.A. Shcherbakov: Geostatistical Analysis of the Spatial Variability of Water-Holding Capacity of Gray Forest Soil 24

P.M. Sapozhnikov and A.N. Prokhorov: Approaches to Calculating Monitoring Indicators of the Physical State of Soils 37

Soil Reclamation

P.S. Lozovitskiy and I.V. Tkachenko: Influence of Irrigation on the Properties and Fertility of Dark Chestnut Soils 54

M.L. Sizemskaya and V.A. Romanenkov: Evaluation of the Rate of Desalinization of Solonchak Solonetzes in the Forest and Land Reclamation System of Development in the Northern Caspian Lowland 67

Soil Pollution

R.V. Galiulin, V.P. Uchvatov, R.A. Galiulina, and T.Kh. Shukyurov: Effect of Heavy Metals on Self-Purification of Agricultural Soils Containing Pesticide Residues 78

Discussion

I.I. Sventitskiy: Bioclimate Evaluation of Soil Fertility 85

Methods

N.S. Panikov, M.V. Paleyeva, S.N. Dedysh, and A.G. Dorofeyev: Kinetic Methods for Determining the Biomass and Activity of Various Groups of Soil Microorganisms 96

Sh. Tot and A. Feher: Evaluating Soils of Recultivated Lands in Hungary 112

I.A. Mulyar and M.B. Minkin: Use of Ultrasound in the Analysis of Water Extracts of Soils 119

Number 9

Soil Physics

T.N. Shevchenko: Physical Properties of Main Soil Types of the Southern Nyassaland Plateau 1

Soil Chemistry

Yu.R. Kolomiyskiy, O.B. Kuznetsova, Yu.M. Loginov, A.V. Pukhovskiy, and Yu.V. Frolov: A New Method of Separate Determination for Organic and Inorganic Carbon in Soil by Wet Combustion under Reduced Pressure 17

A.I. Kulikov, Yu.V. Abgaldayev, and G.D. Chimitdorzhiyeva: Changes in Humus Content in the Agricultural Use of Transbaikalia Dry-Steppe Soils 34

F.A. Tikhomirov, A.L. Klyashtorin, and A.I. Shcheglov: Radionuclides in Vertical Soil Runoff in Forests Near the Chernobyl Nuclear Power Station 42
A.O. Samonova: Lanthanum, Cerium, Samarium, and Europium in the Forest Steppe Soils of the Volga Upland 50
S.A. Ivanova, A.A. Ponizovskiy, and Ya.A. Pachepskiy: Cation Exchange Properties of Unirrigated and Irrigated Ordinary Chernozem 58
O.I. Obukhov and A.A. Popova: Seasonal Dynamics and Spatial Variability of the Heavy Metal Content of Soils and Groundwater 71

Methods

G.V. Stulina: Utilization of the Hydrophysical Characteristics of Soils to Evaluate the Possibility of Using Intrasoil Irrigation 83
L.A. Ivannikova: Method of Measuring CO_2 Flow from Soil under Natural Conditions 88
O.Yu. Baranova, V.A. Grachev, and V.A. Isayev: Interrelationship of Different Types of Solonetzicity as Exemplified by the Virgin and Reclaimed Meadow Solonetzes of the Central Chernozem Region 95
Sh.Kh. Bekova, Ye.B. Burlakova, V.L. Kuskov, Ya.S. Lebedev, V.A. Bol'shakov, and L.P. Orlova: A Mild Procedure for Concentrating Dissolved Substances from Natural and Drainage Waters and Their Analysis by EPR, Atomic Absorption Spectroscopy, and Mass Spectroscopy 104
I.V. Kuznetsova and A.D. Startsev: Methods of Investigating Swelling and Shrinkage of Soil as Related to Its Structure 113
I.I. Filon, V.I. Taranenko, and S.P. Akimenko: Concentration and Makeup of Humus in a Typical Chernozem and Crop Productivity after Application of Fertilizers 120

Number 10

Agricultural Chemistry

Zh.V. Koteva, V.N. Kudeyarov, and T.N. Myakshina: Effect of Nitrogen Fertilizers and Other Factors on Potential Nitrogen-Fixation and Denitrification Activity of Gray Forest Soil 1

Soil Mineralogy

M.P. Verba and V.A. Devyatykh: Changes in Micromorphology of Gypsiferous Meadow Sierozem during Leaching (Model Experiment) 12

Soil Biology

A.A. Mos'ko, T.A. Shcherbakova, N.A. Glushko, and I.A. Klenitskaya: Immobilization of Polyphenol Oxidase by Soil Humus 23
D.G. Zvyagintsev, T.G. Dobrovol'skaya, I.P. Bab'yeva, G.M. Zenova, L.V. Lysak, and O.Ye. Marfenina: Role of Microorganisms in the Biogeocenotic Functions of Soils 30

Soil Conservation

R.I. Bayeva, E.I. Gagarina, A.D. Gorbovskaya, L.L. Dvornikova, Ye.N. Vinogradova, and A.I. Popov: Disturbance of Natural Ecosystems by Phosphorite Extraction 47

Soil Erosion

E.K. Mirzakeyev: Use of a New Polymeric Compound for Controlling the Irrigation Erosion of Soils in Southern Kazakhstan 65

Methods

A.V. Ryazanova, T.S. Krasotina, V.M. Zdrenik, and A.V. Bel'brut: Ecological Effects of the Use of Certain Soil-Aggregating Agents 72
A.S. Frid: Evaluation of the Variation of a Characteristic with Depth in the Soil Profile 78
V.P. Tribis: Quantitative Classification of Soils in Terms of Their Content of Organic Matter 84
J. Spychaj-Fabisjak and I. Janowiak: Loss of Ammonia from Soil by Volatilization 88
L.A. Ivannikova: Use of the Absorption Method to Determine the Normal Flow of CO_2 from the Soil 96
V.P. Il'in and I.S. Manykin: A Device for Layerwise Collection of Fixed Soil Samples from Pits 104
N.L. Baydina: Ion-Exchange Extraction of Humic Substances from Soils 108
